

Building on Bitcoin

3rd-4th of July 2018, Lisbon, Portugal

Building on Bitcoin, or BoB for short, is the conference that follows-on **Breaking Bitcoin** of last September.

This year, the focus is about Building. Second Layer (LN, Side-chains), scripts (MAST, Privacy), or anything related to building on top of the protocol (wallets, tools).

We plan on alternating between Building/Breaking every other year.

Join us for the most Bitcoin-centric community conference of the year.

In details:

- **20+ world-class experts** giving a talk, hundreds in attendance
- **500 attendees** from the Bitcoin technical community
- **2 full-days** of talks (3rd and 4th of July 2018), live-streamed
- **Lisbon city-centre**, Portugal, 15 minutes away from the airport
- **No bullshit**, no ICO, no scams
- By the community, for the community

We need your support:

	Logo on stream 30k+ views	Roll-up banners	Goodies	Logo on:	VIP tickets
